

Have you heard about the Rainbow Hunt?

All around the country people are creating **rainbows** to hang in their windows to spread joy during this crazy time!

Even though it's important to stay home and practice social distancing, it's also important to get some **fresh air** and **exercise** by going for a **walk outside**. When you go for a walk, look for **rainbows**! See how many you can find.

- Today, you get to make your own rainbow...but not just an ordinary rainbow, a ***musical*** rainbow...your very own

Rainbow Rhythms!

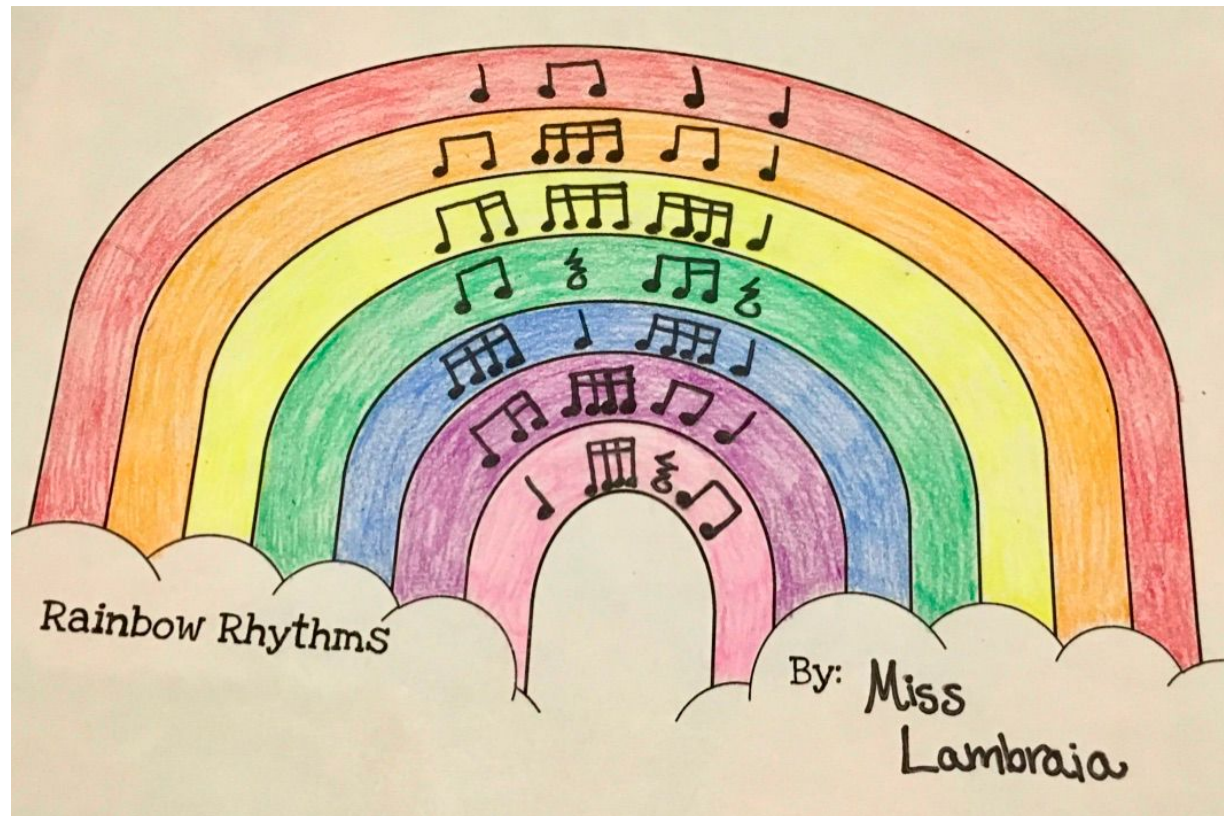

Part 1: Write a rhythm for each color of the rainbow.

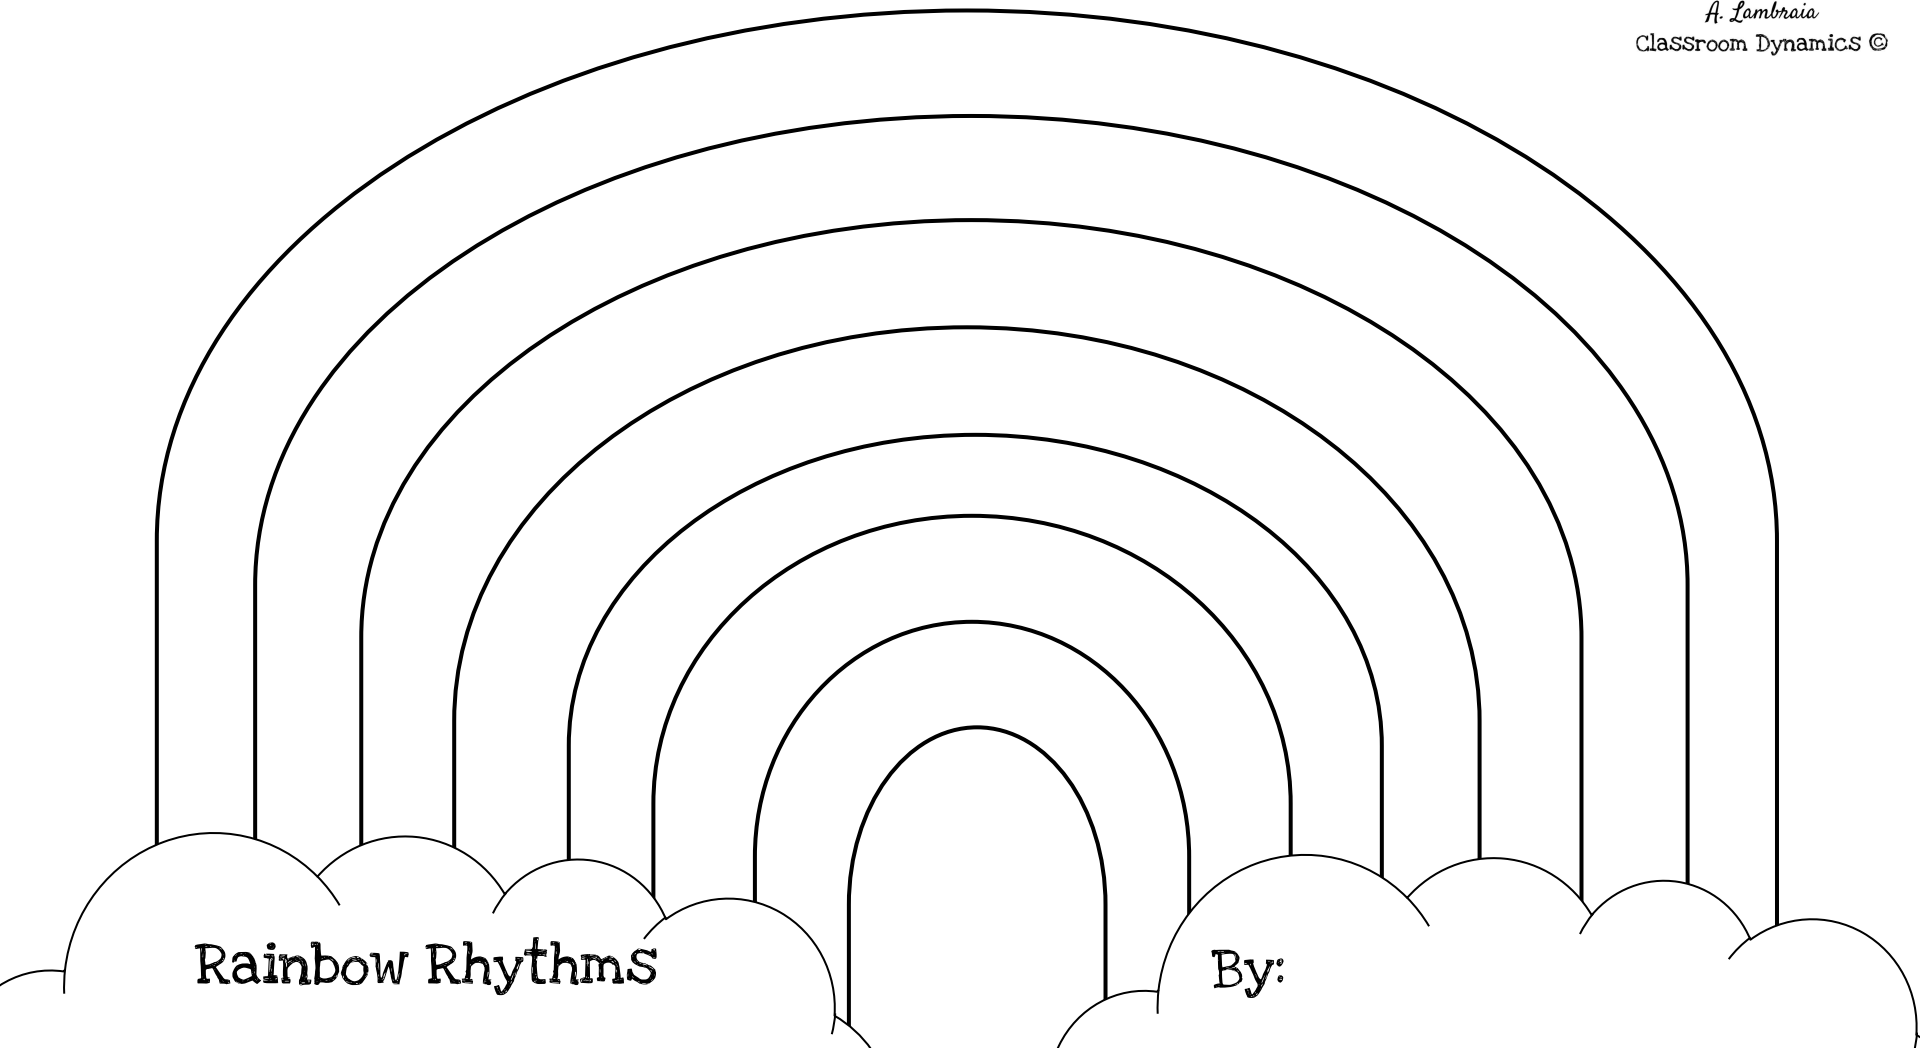

Keep in mind...

- Each color should have **4 beats**.
- Choose from the following:

- Write the notes in **pencil** first and then go over them with a thin black marker.
- Color in your rainbow! (this way each rhythm has its own color)
- **See the example to get you started:**

Rainbow Rhythms

By:

Part 2: Rearrange the colors to create your own composition!

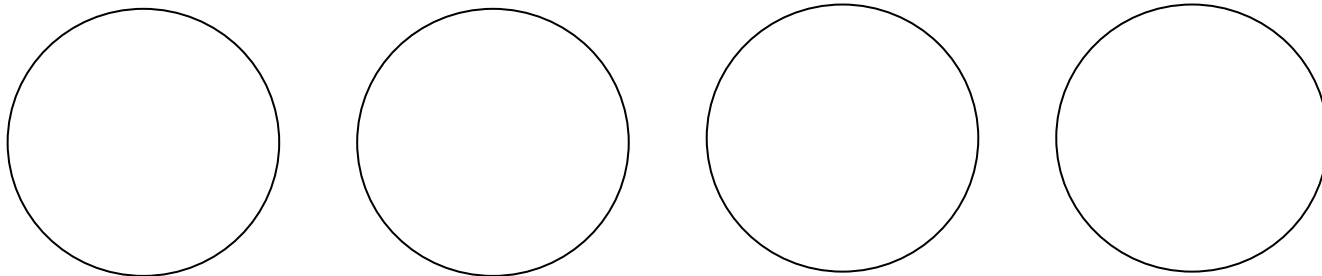

Keep in mind...

- You may repeat colors.
- You must use at least 4 different colors BUT you don't have to use all 7.
- You must come up with 3 patterns: **A**, **B** & **C**.
- Be creative & have fun!
- See the example to get you started:
-

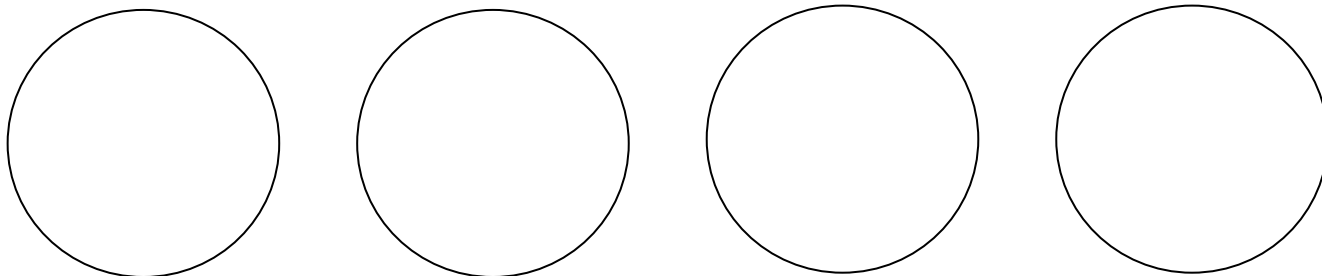

When you are finished, play each of your patterns! Clap, sing or play it on your instrument.

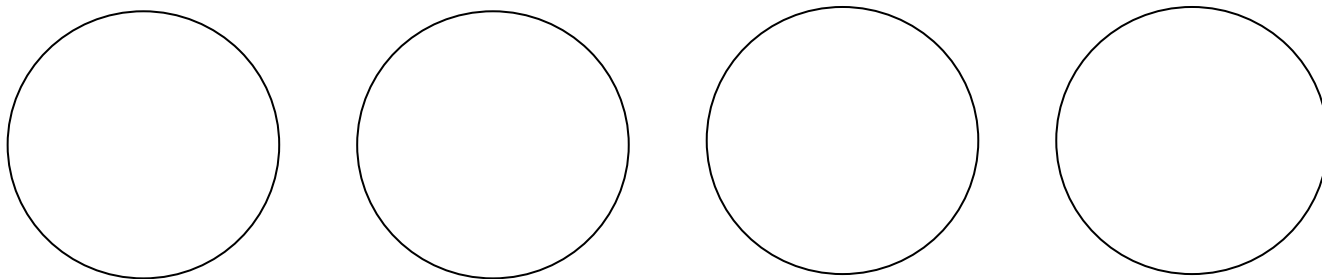

A.

B.

C.

When you are finished, play each of your patterns! Clap, sing or play it on your instrument.
